witas
masters in MEP

Witas and BIM go back a long time. They got to know each other in 2006, when Witas was still an engineering office and used BIM Modeling software Revit MEP for its designs.

Over the years, the exponential collection of BIM knowledge has led to advanced software that allows you to model all technical disciplines in a building in a simple way. In addition, Witas offers full-fledged courses that enable you to quickly and consistently integrate Revit MEP into your business.

Learn from these Masters in MEP and get started in the world of BIM!
